I.

INTRODUCTION

A consolidated schedule of post adjustment classifications and threshold figures used for calculating rental subsidies (or deductions) is attached.

Names of countries and areas, which appear in English alphabetical order, are indexed in French in the list attached to the schedule.

In cases where only one post adjustment classification is shown for a country, normally for the capital city, that classification will be applicable for all duty stations within the country.

This schedule is effective **1 May 2025**, unless otherwise indicated, and supersedes any schedule previously published. It is available on the ICSC home page <http://icsc.un.org>

On trouvera ci-joint un barème mis à jour du classement des lieux d'affectation aux fins d'ajustements des indemnités de poste et des seuils aux fins du calcul des allocations (ou déductions) de logement.

Les noms des pays et localités figurent par ordre alphabétique anglais. On trouvera à l'index annexé au barème les noms en français.

Dans les cas où une seule classe est indiquée pour le pays, en général pour la ville capitale, cette classe s'applique à tous les lieux d'affectation dans le pays.

Sauf indication contraire, le barème ci-joint entre en vigueur le **1^{er} mai 2025** et remplace tous les barèmes déjà parus. Il est disponible sur le site internet de la CFPI: <http://icsc.un.org>

IV. 0.5% Rule

1. The results of the application of the 0.5% rule for group I duty stations are included in the attached Consolidated Post Adjustment Circular.

V. The application of the modified 0.5% Rule for group I duty stations

2. At its 96th session, the International Civil Service Commission (ICSC) approved the application of the modified 0.5 per cent rule for group I duty stations that meet two conditions: (a) the currency of the duty station is neither any of the currencies of headquarters duty stations (that is, the US dollar, Swiss Franc, Euro, or British Pound), nor pegged, in a fixed or otherwise strict manner, to them; and (b) the share of in-area expenditures incurred in non-local currencies by reference to the benchmark net take-home pay (NTP) based on the results of the latest cost-of-living survey is at least 15 per cent. For such duty stations, the monthly multiplier between reviews is obtained by keeping two separate shares of benchmark NTPs, expressed in US dollar and in local currency, stable, with a maximum fluctuation of plus or minus 0.5 per cent, with the share of the NTP expressed in local currency adjusted for changes in the exchange rates only, whereas the share of NTP expressed in US dollars is insulated from local currency fluctuations. The share of the NTP expressed in US dollars is obtained as the share of in-area expenditures, incurred in non-local currencies, of the benchmark NTP at the time of survey implementation.

3. In accordance with the provision of the application of the modified 0.5 per cent rule for group I duty stations, as outlined above, the post adjustment multipliers applicable for **Hungary** and **Romania**, with effect from 1 May 2025, are included in the attached Consolidated Post Adjustment Circular.

VI. Cost-of-living surveys

4. The results of cost-of-living surveys for duty stations listed in Table 1 are included in the attached Consolidated Post Adjustment Circular.

Table 1: List of surveys by duty station for May 2025

Duty station	Type of survey	Date of survey
Comoros	Place-to-place	November 2024
Côte d'Ivoire	Place-to-place	December 2024
Equatorial Guinea	Place-to-place	December 2024
Gambia	Housing	December 2024
Malaysia	Housing	December 2024
Nicaragua	Housing	December 2024
Togo	Place-to-place	November 2024

VII. Duty Stations with Personal Transitional Allowance (PTA)

5. Under the modified operational rules as described in the document **ICSC/CIRC/GEN/04/2024** published on 5th July 2024, the PTA is calculated every month to ensure that the Net Take-Home Pay (NTP) for existing staff does not decrease but also does not exceed its initial maximum setting in the first month of the new application. The first six months after the implementation of survey results, the PTA will bridge the full gap between the new benchmark NTP and the prevailing NTP at that time. Following this period, the NTP for existing staff will be gradually reduced by 3% every four months, with the PTA adjusted monthly to reflect the difference between the NTP for existing staff and the newcomers. This monthly adjustment process will continue until the NTP for existing staff will coincide with the statutory one. The PTA became applicable for **Comoros** in May 2025. Table 2 provides a summary of all PTAs in effect as of 1 May 2025.

6. It should be noted that the PTA is paid **in addition** to the regular post adjustment multiplier and thus should be taken into account in determining all other entitlements ordinarily affected by post adjustment, such as rental subsidy, settling-in grant, spousal allowance etc. PTA should be paid only to staff on post on or before its starting month. Staff joining the duty station after the PTA starting month are not eligible to receive the PTA.

Table 2: Summary of personal transitional allowances (PTAs), as of 1 May 2025

VIII. W40 Measure

7. The waiver of the **40 per cent** of rent limit on rental subsidy is **now applicable** for **Malaysia** and **Nicaragua**, effective 1 May 2025.

IX. One Month Rule (OMR)

8. Due to sustained substantial inflation for a period of time, the one-month rule (OMR) is applicable for **Argentina**. Under this rule, the post adjustment multiplier of **this duty station** is reviewed on a monthly basis during the period of substantial inflation. However, the application of the rule did not trigger a change in the post adjustment multiplier for **Argentina**.
